Praia da Vitória (PT)

Cartesius Lyceum (NL)

TECHNISCHE UNIVERSITEIT EINDHOVEN (NL) and a consortium of European organizations launched the **CicloSchools project** on December 1, 2023, to revolutionize secondary school Circular Economy (CE) education.

CicloSchools uses Hackathons to change traditional pedagogy, promoting active learning and sustainability skills.

This comprehensive project includes research, design, teacher training, and curriculum development to equip educators and students with the knowledge and skills to address current environmental issues.

With its innovative goals, CicloSchools aims to significantly impact the incorporation of Circular Economy principles into secondary school curricula across Europe.

Meeting highlights:

- An opening and welcome at the Flux Building was followed by an agenda review by Busra Karga and Dury Bayram.
- Participants from each partner organization introduced themselves and discussed their project roles.
- TU/e described the project's goals, outcomes, work packages, and partners' roles.
- Work Package (WP) sessions covered research methodology, curriculum development, implementation, project management, communication, and dissemination.
- The meeting was full of ideas, talks, and planning.
- The meeting ended with a recap of action points, deadlines, and online meetings arrangements.

We are delighted to provide you with a recap of the recent **Transnational Project Meeting (TPM) 1**, which took place on March 14-15, 2024, in Eindhoven, hosted by the Eindhoven University of Technology (TU/e).
